

Technical description

Test results:	
Item:	Cable solar/PV H1Z2Z2-K Red 1x6,0 mm ² 1,5 kV DC, 1 kV AC - WATT KIT
Permissible insulation resistance:	500 MΩkm
Cable temperature:	11 °C (n:0,25)
Cable length:	10 fm
Test procedure:	The tested cable section, measuring 10 meters in length, was laid out on a galvanized steel cable tray. The cable tray was electrically connected to the operational PE potential of the test room and to the PE connection of the test instrument, with a resistance of R=0.12Ω
Cable section identification:	L1-sheath
R [MΩ]:	2480 GΩ
R [MΩ*km]	620
Rating:	COMPLIANT
